## Taylor & Francis open access offset agreement in Austria

Corresponding authors from KEMÖ institutions are potentially eligible for open access funding through the agreements Taylor & Francis has in place with KEMÖ and the FWF.

For institutions participating in the **KEMÖ open access** agreement

**Q** How do I know which agreement covers an article?

**A** Research which is funded by the FWF is potentially eligible to be funded by the FWF prepayment account. Research which is not funded by the FWF, but whose corresponding author is affiliated with a KEMÖ institution, is potentially eligible to be funded by the KEMÖ prepayment account.

**Q** What is the price of the Article Publishing Charges (APCs) covered by the prepayment accounts?

**A** Each APC will have a **30% discount** applied, making the Taylor & Francis Open Select APCs **€1,500** each.

**Q** Can the discounted APCs be used retrospectively?

**A** Research which is funded by the FWF cannot be made open access retrospectively (post-publication). The FWF does not support retrospective open access funding.

**Q** How do these agreements affect subscription costs?

**A** The value of the FWF or KEMÖ spend on Taylor & Francis Open Select (Hybrid) APCs will be used to calculate a credit against the KEMÖ institutions' subscriptions the following year.

**Q** How will the library have visibility of eligible research as it is published?

**A** Taylor & Francis will run weekly reports to identify all manuscripts that have been accepted over the previous 7 days from KEMÖ corresponding authors. These reports will be shared weekly with a librarian contact from each KEMÖ member institution.

# What processes do I follow as an author?

Q

How do I know if I am eligible to receive the discount?

A

You are eligible to receive the discount if you are a corresponding author at an institution who is a participating member of the KEMÖ Academic Consortium. If you are not sure your institution is a member, please check with your library or consult Taylor & Francis.

1

Choose the journal you wish to submit to. A complete list of Taylor & Francis journals can be found on [www.tandfonline.com](http://www.tandfonline.com).

2

Find the *Submit online or Instructions for authors* link on the journal homepage under the **Authors and submissions** navigation tab.

3

Follow the submission instructions. Once accepted, authors will receive an email offering them the option to make their research open access.

4

Does your research have Austrian Science Fund (FWF) funding?

Yes

If you choose to make your article open access, email [apc@tandf.co.uk](mailto:apc@tandf.co.uk) to ask about using **FWF prepayment funds** to cover the Article Publishing Charge (APC).

No

If you choose to make your article open access, email [apc@tandf.co.uk](mailto:apc@tandf.co.uk) to ask about using **KEMÖ prepayment funds** to cover the Article Publishing Charge (APC).

5

Taylor & Francis will check eligibility with a central contact at the institution. If approved, the discounted APC will be deducted from the prepayment fund.

6

The article is now available online, accessible to the global research community for reading, sharing and citing!

Q

What Taylor & Francis journals are eligible to receive the discount?

A

All Taylor & Francis Open and Open Select journals are eligible to be covered by both prepayment accounts.
